Install your VOKKERO UNITY system

1.

Connect the configurator and place the terminals in the charger slot.

Orange LED = Still charging

Green LED = Full charged

Red LED = Not seated properly

Set up a conference in a few seconds

The terminals are delivered pre-configured and ready-to-use.

Turn on the terminals to press the On/Off button and in particular the MASTER (with the orange icon n°1).

The numbers on the LCD screen indicate the role of your device in the conference:

- **Icone 1 (orange)** = MASTER
- **Icone 2 (blue)** = User 1
- **Icone 3 (green)** = User 2
- **Icone 4 (red)** = User 3

IMPORTANT: The role numbers must be unique for the proper functioning of the conference (only one n° 1, only one n° 2, etc ...).

FOCUS ON: MASTER ROLE

This role is used to synchronize the other terminals.

IMPORTANT:

- If the MASTER is not ON = no communication possible
- Never have 2 MASTER terminals ON at the same time

Connect your headset

Plug the headset into the slot at the top of the terminal.

Ajust the volume by pressing the +/- buttons.

IMPORTANT:

- Line up the 2 red marks of the product and the connector.
- To disconnect the headset, grasp the secure connector ring.

Do not turn the connector or pull the cable!

Now you're ready to communicate!

BONUS: Modification of the role number

- **Push + on the terminal for 5 seconds**
- Your terminal screen will then display your number flashing
- **You can switch the number by pressing + or -**
- Press the "On / Off" button to confirm

IMPORTANT: The role numbers must be unique for the proper functioning of the conference (only one n ° 1, only one n ° 2, etc ...).

BONUS: Modification of the channel

The system offers 3 different channels.

Know the actual channel:

- **Push - on the terminal for 2 seconds**
- A voice synthesis indicates the current channel

Modification of the channel:

- **Push - on the terminal for 5 seconds**
- A vocal synthesis announce that your entry in the modification menu "Channel Selection"
- **You can switch the channel by pressing + or -**
- Press the "On / Off" button to confirm
- The selected channel number flashing rapidly for a few seconds
